

“

EVC's strong transfer pathways to top universities aligned perfectly with my long-term academic goals. Attending EVC gave me the opportunity to explore my interests and identify the major I wanted to pursue. After immigrating to the U.S, I felt particularly lost, and EVC played a crucial role in helping me find my path. I wouldn't have been able to transfer to UC Berkeley as a Bioengineering major without my experience at EVC.”

Kim Duong  
NSF Biology Scholar

**ENGINEERING  
PROGRAM**

If you're interested in Engineering at EVC, a great place to start is with **ENGR 010: Introduction to Engineering**. This course will allow you to explore the field and set you on the path toward your Engineering degree!

**Departmental contact email: [EVCEngineering@evc.edu](mailto:EVCEngineering@evc.edu).**

Santa Clara County currently employs over 200,000 engineers with an average salary of \$119K. There are currently 14K job postings and growth is expected to be 10 percent over the next 10 years, according to data from Lightcast Data.

### OUR NEW GENERAL EDUCATION BUILDING

offers the latest in lab equipment and technology to transfer to the school of your dreams. That includes San Jose State, which is the No. 3-ranked in the top-10 by U.S. News and World Report in Electrical, Mechanical, Computer and undergraduate engineering.

### TYPES OF ENGINEERING DEGREES:

- Electrical Engineering • Computer Engineering
- Civil Engineering • Mechanical Engineering
- Industrial Engineering • Biomedical Biological Engineering
- Chemical and Materials Engineering

### ENGINEERING INDUSTRIES IN SAN JOSE

- Semiconductor Manufacturing
- Software and Hardware Engineering
- Telecommunications
- Aerospace and Defense
- Renewable Energy
- Biomedical Engineering
- Robotics and Automation
- Computer Engineering and IT
- Electronics and Consumer Devices
- Automotive Engineering (Electric Vehicles and Autonomous Vehicles)
